

Where *His*-tory Meets *Her*Story

Women of the ILWU

1st Leadership Conference

Join women workers in building our skills as workplace leaders.

We are preparing for a great conference on September 27, 2010 in San Pedro at the Doubletree Hotel. There is still plenty of time for you to get on board and share your ideas with us.

There will be plenary sessions on the history of the ILWU and women in labor history and small workshops on sexual harassment, women's leadership in unions and skills that you need to effectively participate in the union and improve conditions in your workplace.

We are also planning a Women's Photo Exhibit and have started work on a Women's Video Project which will record history as her-story.

Share your experiences.
Tell us what will make this conference useful for you.
Join us and make a difference.
